

Cooperative Learning Activities

Activities that involve small groups of students engaging in interactive analysis and critical thinking

Design Worksheet

Questions about your class

1. What course will you be working on?
2. What specific class (topic) will you use this activity in?
3. What are your learning objective(s) for this class?

Questions about your learning activity

4. Pick a learning activity and describe why this particular learning activity is well suited for your class's learning objective.
5. What actions will you take to ensure your students are prepared for this activity?

6. During class, how will you connect face to face and remote learners?

7. What will be the challenges to effectively conducting this activity?

8. Create a title for your learning activity.
