## Associated Colleges of the South (ACS) Study Abroad Course Learning Goal Assessment Rubric

|   | Goals   | No Evidence   | Evident / Milestone   | Very Evident / Capstone  |
|---|---|---|---|--|
| 1 | Develop new skills and insights that<br>will be useful for you while abroad<br>and in the future.   | Does not enumerate or<br>discuss the skills and insights<br>that are needed or that have<br>been developed.                               | Lists the skills and insights that will<br>be needed AND were developed<br>while abroad.  | Articulates why such skills and insights are<br>important and how they were developed. Makes<br>an explicit link to the future: how these<br>skills/insights will be used going forward.   |
| 2 | Explore your expectations, cultural identity, and worldview.  | No personal reflection of<br>expectations. No discussion of<br>how cultural identity and<br>worldview affect<br>international engagement. | Lists expectations before departure,<br>and how they have changed through<br>experience. Awareness that cultural<br>identity and worldview dictate<br>expectations and affect engagement. | Thoroughly explores evolution of expectations<br>throughout experience. Discusses how cultural<br>identity and worldview affect engagement, and<br>identifies conscious efforts to modify or expand<br>worldview. Reflects on ways cultural identity<br>also affects engagement at home. |
| 3 | Recognize cultural adjustment/transition processes.   | No awareness of cultural<br>transition: before-during-<br>after abroad experience.  | Basic discussion/listing of markers<br>of cultural adjustment, transition,<br>growth throughout experience.   | Articulates important examples of cultural<br>adjustment and transition, AND why these are<br>important. Adjustment and transition are<br>discussed as an ongoing growth process.  |
| 4 | Develop strategies for engaging with the host culture.  | No listing or discussion of strategies before, during, or after abroad experience.  | Simple or superficial listing of strategies either before or during the experience.   | Fully developed strategies before departure,<br>implemented and adjusted during in-country<br>experience, and reflected upon after experience<br>(what worked or didn't work and why).   |
| 5 | Articulate the skills and qualities that<br>come from effective education abroad;<br>recognize how these skills develop<br>through actions during preparation,<br>engagement, and re-entry. | No articulation of skills or actions.   | Basic articulation of skills and qualities that arise from the abroad experience.   | Thorough articulation of skills and qualities,<br>including an understanding of how these skills<br>developed through personal actions during the<br>three phases of the experience.   |
| 6 | Tell an effective story about your<br>personal and professional growth as a<br>result of your international<br>experience.  | No story, or story does not<br>address personal and<br>professional growth.   | Story lists elements of personal or professional growth.  | Comprehensive story of personal AND<br>professional growth; clear linkages of how such<br>growth results from abroad experience.   |
